

**COVER TEMPLATE  
PAPERBACK BINDING – SIZE A5\*\***

**cropping marks** with approx. 3 mm offset from the edges of the exact size

**bleed** 5 mm will be cut off during final trimming. Its purpose is to prevent occurrence of white unprinted edges in case of minor imprecisions

**ISO A5 cover size**  
width: 148 (back cover) + spine\* + 148 (front cover); height: 210 mm

**trimmed A5 format**  
width: 146 (back cover) + spine\* + 146 (front cover); height: 205 mm

**recommended maximum to contain**  
important symbols such as text or logos („Live area“) – 10 mm from the edge

**text on the spine** is applicable from 8mm spine width, otherwise we cannot guarantee its precise placement (shift sideways can occur)

**spine\* marks**

\*spine width is calculated from the page count (2 pages = 1 sheet) and the paper type (see below for coefficients). E.g. 150 (page count) x 0.053 (coefficient for 80 gsm standard paper) = 7.95 mm

paper type	coefficient
80g (standard, hybrid, biotop)	0.053
80g old style	0.083
90g	0.060
100g	0.053
120g	0.075
140g coated	0.058

**\*\* ISO dimensions for other formats (mm)**

A4	210 x 297
A6	105 x 148
B5	176 x 250
B6	125 x 176

**\*\* trimmed dimensions for other formats (mm)**

A4	208 x 292
A6	103 x 143
